

Regarding K-LOVE radio station, I listen to it every day. I am inspired and uplifted by the messages carried on this radio station.

Friends of mine also listen to this radio station.

If K-LOVE were to be displaced by an LPFM broadcaster or other programming, I would no longer have the radio content that I have come to rely on. The content on this radio station is unique and is not matched by any other radio station in the San Francisco Bay Area.

K-LOVE radio programming is in the public interest by promoting family values and communicating the importance of the highest of ethical behaviors.
